

Poorly planned and maintained dirt roads and road banks are a major source of sediment in Haywood County. Check your erosion controls regularly. If additional measures are needed, install them before you have a major washout.

## Publications

Several of the public agencies noted have free fact sheets and brochures available. The following manuals and books are available at the three branches of the Haywood County Public Library:

*Erosion & Sediment Control Planning and Design Manual.* Written by the NC Department of Environment and Natural Resources, and the NC Agricultural Extension Service, supported by the Sedimentation Control Commission.

*Erosion & Sediment Control Field Manual.* Written by the NC Department of Environment and Natural Resources, and the NC Agricultural Extension Service, supported by the Sedimentation Control Commission.

*The Layman's Guide To Private Road Construction In The Southern Appalachian Mountains.* Written by USDA Natural Resource Conservation Service.

## Technical Help

*Haywood County Soil & Water  
Conservation District  
PO Box 425  
Waynesville, NC 28786  
828-452-2741*

# It's Not Just Dirt!

Thank you for reading this brochure and protecting our soils, streams and lakes. Ultimately, we all pay the costs for soil erosion and sedimentation of our waterways. *You can make a difference!*

This brochure was developed by the Haywood Waterways Association, Inc. and funded by the Pigeon River Fund.
